

## Health and Safety During Covid-19

Camp Victory is looking forward to working with you to provide a safe and healthy experience at Camp, and it all begins with healthy people! If you are sick, please stay home. If you have underlying health conditions and are at higher risk, please stay home.

Best-Practice guidelines on promoting health and safety will be communicated in various ways: pre-camp email and website posts, onsite signage, and welcome packets. These practices include:

### Expectations:

- Practice physical distancing (6').
- Wearing a mask is required at all times when indoors (exceptions – in your cabin or when eating meals at your table in the dining hall). If you have difficulty wearing a mask, please let Camp know prior to arrival, so we can work with you regarding a possible accommodation.
- Wash hands with soap and water for twenty seconds and wash often.
- Avoid touching eyes, nose, and mouth.
- Cover coughs and sneezes.
- Avoid sharing personal items and foods.
- Guests must agree to Camp's screening procedures. Please see *Guest Screening* on the back page.

### What to know:

- All lodging and common areas are set up—sleeping, campfire, meals—to maximize distance from others.
- Current MDH guidelines limit 10 people per cabin
- Staff will follow workplace guidelines.
- Food Service will follow MN Dept. of Health guidelines.
- Guests will be asked to sit with their cabin group.
- Staff will dismiss tables to the food line one at a time. Sanitizer will be located at all food stations.
- Camp will request the names and contact information for all guests for potential contact tracing purposes.
- No one, other than registered guests, will be allowed to visit.

### Housekeeping

Camp Victory housekeeping and facilities teams will follow the guidelines outlined in the MNDH Lodging Establishment Cleaning Guidance for COVID-19. In addition, Camp will employ:

- All public restrooms will be cleaned while guests are on site. During these cleanings all public area touch points will be disinfected.
- All common spaces that are reserved and used by a guest will be cleaned and disinfected between uses.

This document is subject to modification per CDC and MN Dept of Health Guidelines

## **Guest Screening**

Screening is based on the MNDH Visitor and Employee Health Screening Checklist. **No temperatures taking is necessary.** All information should be kept confidential. Please help Camp stay healthy and remain open for guests by complying with the following:

- Pre-Screening questions should be sent to your group members a week prior to your stay and must be reviewed before the day you leave for Camp.

### **SCREENING QUESTIONS and FOLLOWTHROUGH**

Question 1: **Have you had any of the following symptoms in the last 7 days that you cannot attribute to another health condition?**

fever or chills • cough • shortness of breath or difficulty breathing • fatigue • muscle or body aches • headache • new loss of taste or smell • sore throat • congestion or runny nose • nausea or vomiting • diarrhea

Question 2: **Have you had close contact\* with someone who was diagnosed or suspected to have COVID-19 within the last 14 days?**

➤ *Close contact means:* A person has been within 6 feet of a COVID-19 case or suspected COVID-19 case for an accumulative time of 15 minutes (CDC).

Question 3: **Are you currently in a 14 day self-isolation/quarantine due to exposure or illness?**

Question 4: **Are you awaiting the results of a Covid 19 test?**

**If you answer YES to any of the above questions, you must stay home.**

## **COVID-19 Exposure Plan**

Should a guest develop COVID-19 symptoms or become personally aware of direct COVID-19 exposure, the following steps need to be taken by the camp or group leader.

- The sickened person and any person housed with him/her will be asked to leave camp as soon as practically possible and seek medical attention as needed.
- Staff will clean and sanitize any rooms where the exposed person has been.
- Staff or group leaders will communicate to group members and staff if there is a possibility of exposure to them, acting appropriately if they or any other staff need to be quarantined.
